Dear prayer partners:

We appreciate, along with our friends in DR of Congo in particular, your partnership in prayer. It has been extremely difficult for many in the North East but was an encouragement when the President visited the main area (Bunia) and acknowledged the suffering of the population and asked for forgiveness.

As well as Nyankunde other areas where we have worked and recorded were also attacked and all survivors evacuated. Those now returning have the task of cleaning up once again!! Many buildings were destroyed and it is very difficult to get replacements for housing or contents.

Noela and I appreciate your prayers also as we continue to wade through years of paper work, scripts in various languages that we have recorded. It is difficult also to decide what master cassettes to retain and what to destroy. Many programs have now been digitised but of course in remote areas with smaller language groups and no access to electricity or batteries, cassettes and handwind players are still used.

THANK YOU all for your prayerful and loving concern

Noela & Julie
